- Programming, Music, Videogames, AI testing

Profile

Full-stack developer with a passion for collaborative teamwork. Committed to delivering optimal results, I am 100% available and always eager to embrace new technologies through continuous learning

Education

Soy Henry Bootcamp   **Jul 2023 - Dec 2023**
Connecting with passionate individuals in the programming and content creation field. I've learned the value of pair programming and collaborative problem-solving

Mechanical Engineering   **Sep 2011 - Dec 2014**
Unexpo-Caracas, Caracas
I studied up to the sixth semester of Engineering

Projects

Main Portfolio
https://david2024.vercel.app/
A fully responsive portfolio built with React and Tailwind, featuring a few animations.

3D Portfolio Website
https://landing-david3022.vercel.app/
This single-page application showcases stunning 3D rendered interactive objects. While the effects are beautiful, the website takes a few seconds to fully load, which may impact the user experience. To make it suitable for commercial purposes, some adjustments are necessary.

Real State
real-statedavid3022.vercel.app
Elegant listings of various apartment rentals with interactive navigation in the navbar leading to different routes, including the Contact Us section.

Restaurant Recipe Project
restorant-nine.vercel.app
A common food site built with an API but with a unique touch. The recipes are divided into different categories for a more user-friendly experience.

Amazon Clone
https://amazon-nxt-js.vercel.app/
An impressive website with a user interface styled similarly to Amazon. It offers various functionalities such as article search and adding items to favorites.

Tetris Videogame
https://tetris02-david3022s-projects.vercel.app/
A classic game created to practice drawing skills in JavaScript and programming logic, including object rotation and collision.
